
OK Wage Boost For Workers at U. S. Rubber Co.

A wage boost of eight cents an hour was granted this week to all hourly-paid employees of the U. S. Rubber Company's Kankakee Unit of the Joliet Arsenal.

The pay boost, effective Oct. 4, affects 1,450 U. S. Rubber employees, according to Paul Blunt, manager.

The Kankakee Unit, one of the nation's principal producers of TNT and other explosives, is operated by the U.S. Rubber Company under a cost-plus-fixed-fee contract with the government.
